Proficient in the MERN Stack, fast learner bringing curiosity and dedication to every project.

TECHNICAL SKILLS.

Languages: Javascript, React, MySQL
Experience with: Node.js, Express, jQuery, React.js, Github, MongoDB, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, REST, AJAX, command line, computer science fundamentals

PROJECTS

WeTrivia| Github: WeTrivia **| Deployed: WeTrivia**
- WeTrivia is a fun, fast-paced trivia competition for you and your friends to test your knowledge in a variety of interesting subjects. Challenge other players to beat your high score, and share your experiences using an innovative chat feature as you play.
- Handles the usage of the trivia API in order to create the trivia game as well as the Categories page. Created the animation of the buttons.
- JQuery

Local Eats| Github: LocalEats **| Deployed: LocalEats**
- Application assists in finding new restaurants, you can use Local Eats to find everything you need to know about the restaurant including the caliber, average cost for two, phone number, and more. You can also find suggested nearby restaurants.
- Wrote the logic required to allow the user to filter their search results. Helped with making the API based AJAX call and traversing the data.
- JQuery

EXPERIENCE

Unemployment Tax Manager   2016 – Present
Emptech   Torrance, CA
Manage daily operations of a team that delivers unemployment tax rate information to over 50 clients with multiple accounts Calculate and update information regarding state unemployment tax rates. Developed and maintain an unemployment tax rate calculating platform directly with the Web Development team.

Key Accomplishments:
- Transferred historic data into an online platform in order to maintain the integrity of the functionality.
